

UMEÅ 943

Umeå 943 is a durable safety shoe made of water-repellent leather with reinforcements in tough Cordura(R), specially developed for heavy and demanding work tasks. The tongue and collar feature extra reinforcement, while the inside is lined with quick-drying Cambrelle(R) in the heel and lacing areas for added comfort during intensive use.

Safety standard: S7S,CI,HI,SC,HRO,FO,SR
